CME engineers crumblers for simplicity, featuring triangle-shaped serrations on rolls, spring-loaded pressure, built-in bypass, and a low-profile design.

Common applications include: Poultry Feed, Aquatic Feed, Bedding, and Fertilizer Pellets.

### TECHNICAL ADVANTAGES

- ▶ Easy to maintain belt-drive design
- ▶ 9 corrugations per inch
- ▶ Adjustable roll gap for varying particle sizes
- ▶ Low profile construction for compact installation
- ▶ Full-length hinged maintenance door for roll inspection and clean-up
- ▶ Designed with a bypass option
- ▶ Designed, assembled, & supported in the USA
- ▶ CME's Signature 1-Year Manufacturer's Warranty

### OPTIONS

- ▶ Single Phase Motor
- ▶ Safety Motor Starter

### COMMON MATERIALS

- ▶ Alfalfa
- ▶ Corn
- ▶ General Feed
- ▶ Hemp/Cannabis
- ▶ Oats
- ▶ Poultry Litter
- ▶ Soybean Meal
- ▶ Wheat
- ▶ Wood
- ▶ Fertilizer

### COMMON INDUSTRIES

- ▶ Fertilizer
- ▶ Animal Feed
- ▶ Hemp/Cannabis
- ▶ Wood Processing

*Our equipment is engineered in the USA and supported in the USA*

*Lifetime Engineering, Technical & Application Support*
